**Duties:** Installs and tests electrical lines and circuits to components, devices and fixtures in military shelters and vans, e.g., distribution boxes, monitoring panels, time and temperature relays, pressure and motor switches, lighting, fans, receptacles, etc. Installs wire mold, raceways and/or conduits and fitting, replaces or installs wires by pulling wire through wire mold or conduit and connecting to electric fixtures or components. Disassembles, repairs, troubleshoots, and/or replaces wire mold, wires, and electrical components and devices. Fabricates and wires phase meter boxes, power distribution boxes, and other meter boxes. Performs disassembly and assembly work in a number of shelters and vans. Disassembly work includes removing radio equipment, teletype equipment, etc., from racks; removing raceways, lights, and/or cable; replacing rusted bolts; preparing inside shelter for painting; removing rotted wire, etc. Installs lights; replaces nuts and bolts; installs equipment racks, etc.

**About the Position:** Tobyhanna Army Depot is the largest, full-service electronics maintenance facility in the Department of Defense with a total installation work force of more than 4,400. The depot's mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. They include satellite terminals, radio and radar systems, secure communications, electro-optics, night vision and anti-intrusion devices, airborne surveillance equipment, navigational instruments, electronic warfare, and guidance and control systems for tactical missiles. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. Located in Northeastern Pennsylvania, near Stroudsburg, Scranton and Wilkes-Barre, the depot is readily accessible to major East Coast cities, interstate highways, railways, international airports, colleges and universities.

**Trades and Labor**

Qualifications Requirements: Applicants resumes will be evaluated on their ability to perform the duties of an Electrical Worker. Your resume must show knowledge of electrical equipment; theory and instruments (electrical, electronic) commonly used in shop and trade practices; technical practices (theoretical, precise, artistic); the ability to interpret and use electrical drawings; the ability to use and maintain hand tools used for electrical work; and the ability to troubleshoot electrical problems. PHYSICAL EFFORT - Work involves frequent standing, stooping, climbing, bending and kneeling, and occasionally in cramped and awkward positions within shelters and vans. Required to lift and handle objects weighing up to 40 pounds; often lifts and moves heavier objects with the assistance of other

workers, lifting devices, and aids such as moveable tables and jacks. Required to use ladders in the performance of duties. **WORKING CONDITIONS** - Work is usually performed inside well lighted, adequately heated and ventilated areas. Occasionally works outside in inclement weather and when on TDY assignments. Subject to cuts, bruises, scrapes, sprains, and strains from handling tools and installing equipment. Subject to burns from hot components, soldering, and electrical shock. Required to wear safety clothing and equipment appropriate for the position. Work in vans/shelters may be dusty. **VETERANS PREFERENCE** - For preference to be granted your resume/supplemental information must clearly show your entitlement to preference. This is done by listing campaign badges, medals earned, dates of military service for which preference is authorized, etc. Veterans claiming 10-point preference must indicate date of VA letter certifying compensation for a service-connected disability or disability retirement pay, or other appropriate information that substantiates the claim of veterans preference. If selected, you must submit documentation that verifies Veterans Preference that was claimed on your application.

Experience and training that furnish the knowledges, skills, and abilities needed to perform the duties of this position consistent with accepted practices of the trade. Ability to use and maintain appropriate tools and equipment. Ability to read, understand, and apply instruction and other materials related to the job.

Ability to do the work of the position under normal supervision.
